## EXECUTIVE SUMMARY

The St. John the Baptist Parish, Louisiana Municipal Separate Storm Sewer System (MS4) National Pollutant Discharge Elimination System (NPDES) Permit requires that a System Wide Annual Report be submitted each year for the purpose of reviewing the prior year's accomplishments, data, and to provide a discussion about the upcoming year's anticipated activities. This Annual Report covers the time period from January 1, 2018 through December 31, 2018.

The following items are the major sections required for inclusion in the Annual Report, as specified in Part V.C "Annual Report Requirements" of the permit.

<u>Permit</u>	<u>Section Requirement</u>
V.C.1	Status of Compliance with Permit Conditions
V.C.2	Summary of Data Accumulated During the Reporting Period
V.C.3	Storm Water Activities to be Undertaken during the Next Reporting Cycle
V.C.4	Proposed Changes to the Storm Water Management Program
V.C.5	Other Governmental Entity Permit Obligations

Currently, the St. John the Baptist Parish Chief Administrative Officer (CAO) coordinates the implementation of the SWMP and the MS4 permit. The CAO coordinates with personnel from the Department of Utilities, Department of Planning, Department of Public Works, Department of Fire, Department of Public Information, and the Department of Parks and Recreation for full implementation of the program.

During the reporting year, St. John the Baptist Parish formally developed its SWMP and continued to implement the MS4 permit requirements. St. John the Baptist Parish was active in public education, public involvement, illicit discharge detection and elimination, good housekeeping for municipal operations, and other SWMP related activities. For example, the Parish continued Parish-wide cleanup days and began to develop Storm Water Pollution Prevention Plans and Spill Prevention, Control, and Countermeasure Plans for its municipal facilities.

The contact person for the permit is:

Laverne Toombs  
1811 W. Airline Hwy

## SECTION 1: STATUS OF COMPLIANCE WITH PERMIT CONDITIONS

As specified in Part IV, Section D of the Permit, St. John the Baptist Parish evaluates compliance with the permit based on minimum control measures to be included in the storm water management plan. The six minimum control measures are:

1. Public Education and Outreach on Storm Water Impacts
2. Public Involvement and Participation
3. Illicit Discharge Detection and Elimination
4. Construction Site Storm Water Runoff Control
5. Post-construction Storm Water Management in New Development and Redevelopment
6. Pollution Prevention / Good Housekeeping for Municipal Operations

The following is a summary of the implementation status of each minimum control measure:

### 1.1 Public Education and Outreach on Storm Water Impacts

St. John the Baptist Parish established measureable goals in 2018 and is currently developing its Public Education and Outreach Program. Currently, the Parish offers various outlets for public education and outreach on storm water impacts. Primarily, the Parish provides individuals and households with various options needed to reduce storm water pollution as residents of the Parish.

St. John the Baptist Parish provides and maintains one trash drop-off facility for residents to deliver waste. Information about this facility is presented on the St. John the Baptist Parish Government website. The facility is located behind the Percy Hebert Building, 1801 W. Airline Hwy, LaPlace, LA 70068. Garbage collection information is posted on the parish website.

The Parish recycle yard located behind the Percy Hebert Building, 1801 W. Airline Hwy, LaPlace, consists of 2-30 yard dumpsters and several bins to recycle newspaper, books, motor oil, and aluminum cans. Residents can bring up to 5 tires a day to the yard. The recycle yard is opened from 7:00 a.m. to 3:00 p.m. Monday through Saturday and is manned by one employee.

In addition to the main recycle yard operated by the Parish, six additional recycle drop-off facilities are located throughout the Parish. Recycling information is posted on the parish website.

St. John the Baptist Parish also collected trees for use in the Christmas tree recycling program. Christmas trees from the 2017 holiday season were collected in early 2018. Trees are collected and stored for use in cooperative programs for beneficial use of Christmas trees with nearby parishes and organizations. In 2018 Christmas trees were delivered to the Lamar Dixon Exposition Center in Gonzales, LA for recycling.

The Measureable Goals as established by the SWMP, and the implementation status of each, is listed below:

<b>Measureable Goal</b>	<b>Develop and implement storm drain marking program by end of permit term.</b>
<i>Implementation Status</i>	<i>Developing program and seeking funding.</i>
<b>Measureable Goal</b>	<b>Distribute educational materials at a minimum of one event per year.</b>
<i>Implementation Status</i>	<i>Currently implementing; establishing protocols to better track data.</i>

<b>Measureable Goal</b>	<b>Develop procedure to record resident complaints and Parish's response to complaints.</b>
<i>Implementation Status</i>	<i>Currently implementing; establishing protocols to better track data.</i>
<b>Measureable Goal</b>	<b>Maintain the parish website to educate the public where to submit complaints throughout the entire permit term.</b>
<i>Implementation Status</i>	<i>Currently implementing; maintaining website and storm water page created early 2019.</i>
<b>Measureable Goal</b>	<b>Continue to make trash pick-up days and drop off facility information available to the public on the parish website throughout entire permit term.</b>
<i>Implementation Status</i>	<i>Currently implementing.</i>
<b>Measureable Goal</b>	<b>Conduct Household Hazardous Materials Collection event once per year.</b>
<i>Implementation Status</i>	<i>Currently implementing; HHW collection completed April 7, 2018; data listed in Section 2.1 of this report.</i>

Records of public education and outreach activities can be found in Appendix A.

## **1.2 Public Involvement and Participation**

St. John the Baptist Parish established measureable goals in 2018 and is currently developing its Public Involvement and Participation program. The public is involved in the implementation of St. John the Baptist Parish's Storm Water Management Program in a multitude of ways.

The Parish regularly organizes community cleanup events such as the Spring Clean Sweep which is held in conjunction with the Great American Cleanup.

The Parish also holds an annual Leaders Against Litter event in which Parish leaders educate the public about the negative impacts of litter on the community and surrounding environment.

A household hazardous waste collection day was held on April 7, 2018 and is held annually.

The Measureable Goals as established by the SWMP, and the implementation status of each, is listed below:

<b>Measureable Goal</b>	<b>Conduct 3 community litter clean up events per year.</b>
<i>Implementation Status</i>	<i>Currently implementing; Spring Sweep, Leaders Against Litter, and HHW collection event held in 2018; available data listed in Sections 2.1 and 2.2 of this report.</i>
<b>Measureable Goal</b>	<b>Storm Water personnel will attend all civic association meetings.</b>
<i>Implementation Status</i>	<i>Currently implementing; developing protocol to track data; available data listed in Section 2.2 of this report. *Note – this measureable goal will be revised for 2019. Refer to Section 4 of this report.</i>

<b>Measureable Goal</b>	<b>Keep the Parish website updated throughout the entire permit term with links to the final MS4 Program Plan and annual performance report.</b>
<i>Implementation Status</i>	<i>Currently implementing; storm water website created in early 2019. *Note – this measureable goal will be revised for 2019. Refer to Section 4 of this report.</i>
<b>Measureable Goal</b>	<b>Conduct a public hearing for major updates/revisions to the Storm Water Management Plan.</b>
<i>Implementation Status</i>	<i>Currently implementing; public hearing held for creation and adoption of St. John the Baptist Storm Water Management Plan held July 31, 2018.</i>
<b>Measureable Goal</b>	<b>Participate in Christmas Tree Collection and Marsh Restoration Program once per year.</b>
<i>Implementation Status</i>	<i>Currently implementing; Christmas Tree collection held January 8-22, 2018. Trees transported to Lamar Dixon Exposition Center in Gonzales. *Note – this measureable goal will be revised for 2019. Refer to Section 4 of this report.</i>
<b>Measureable Goal</b>	<b>Conduct a public hearing for new storm water ordinances.</b>
<i>Implementation Status</i>	<i>Currently implementing; no new ordinances in 2018.</i>

Records of public education and outreach activities can be found in Appendix A.

### **1.3 Illicit Discharge Detection and Elimination**

#### **1.3.1 Development and Implementation of a Program to Detect and Eliminate Illicit Discharges to the MS4**

St. John the Baptist Parish established measureable goals in 2018 and is currently developing its Illicit Discharge Detection and Elimination Program, and also conforms to the requirements of the permit through various activities performed by multiple Parish departments.

The Department of Utilities actively monitors the sanitary sewer system for overflows, and also investigates all customer complaints concerning the sewer system and overflows. Resident complaints are directed to the Department of Utilities for investigation and correction.

Upon receiving a complaint or report of an overflow, Parish personnel respond to the site and document the time the overflow began, the cause of the overflow, estimated volume of discharge, repair methods, and time of completion of repair. All records are maintained at the Department of Utilities office at 434 Elm St., LaPlace LA 70068 in addition to being submitted to DEQ.

St. John the Baptist Parish maintains a point repair and lining contract to have a contractor available at all times to make repairs to the sanitary sewer system and control overflows and discharges. Work orders are kept on file at the St. John the Baptist Parish Department of

Utilities. Repairs and maintenance procedures include emergency point repairs, installation of new sewer pipe to replace broken lines, pipe bursting of cracked sewer lines, and manhole repairs to facilitate flow and prevent overflows.

The Parish also works to eliminate illicit discharges through utility infrastructure improvement projects. Once identified, upgrades to sewerage facilities are made as needed to eliminate non-storm water discharges from the sewerage system. A summary of active wastewater infrastructure capital improvement projects is provided in Appendix B. The projects listed are in various stages of completion.

### **1.3.2 Storm Sewer System Map**

St. John the Baptist Parish maintains a storm sewer system map in GIS format. This map is maintained by the St. John the Baptist Parish Department of Public Works.

Canals throughout the Parish are maintained by St. John the Baptist Parish Public Works.

### **1.3.3 Regulation of Non-Storm Water Discharges**

St. John the Baptist Parish prohibits non-storm water discharges through ordinances and other regulatory procedures. Constables may issue summons and serve subpoenas anywhere in the parish all in accordance with R.S. 13:2586. Violators may also be brought into an administrative hearing in accordance with Chapter 2.5 of the Code of Ordinances.

Chapter 32, Article I of the St. John the Baptist Parish Code of Ordinances which pertains to Solid Waste contains prohibits littering which may enter the MS4 and also outlines enforcement and penalties for littering and improper waste disposal.

#### Littering

*Sec. 32-1. - Littering, trash burning prohibited; penalty.*

*(a) It shall be unlawful for any person to throw, deposit, or burn trash, garbage, grass, or debris upon the public highways, streets, ditches, roads, sidewalk, and public areas of the parish other than as provided for in sections 12-21 through 12-28. Any person who violates the provisions of this chapter will be fined \$500.00, and be required to work picking up trash throughout the parish for four weekends during a one-month time.*

*(b) Any person who possesses a valid occupational license for the operation of a business in the parish and/or any owner of commercial or industrial property in the parish shall maintain his business property in such a manner so as to prevent the accumulation of trash, garbage or debris on his or her property, and shall take all reasonable steps to prevent any type of litter, trash, garbage or debris located on his property from being placed upon the public highways, streets, ditches, roads, sidewalks or other public areas of the parish, or upon the properties of adjacent land owners.*

#### Medical Waste

*Sec. 32-31. - Unlawful to discharge medical waste into public waterway, etc.*

*(a) For purposes of this section, the term "medical waste" means those wastes resulting from the operations of medical clinics, hospitals, abattoirs, and other facilities producing waste which may consist of, but not limited to, human and animal parts, or contaminated bandages, pathological specimens, hypodermic needles, contaminated clothing, and surgical gloves.*

*(b) It shall be unlawful for any person to place, deposit, dump, discard or throw any medical waste or hypodermic needles or syringes into or upon any public waterway, lake, bayou or drainage canal, or body of water in the parish.*

Chapter 42, Article IV of the St. John the Baptist Parish Code of Ordinances which pertains to Sewage Disposal contains various ordinances which prohibit non-storm water discharges into the storm sewer system.

#### Storm Water Discharges

Specifically, Chapter 42, Article IV, Sec. 42-78. (Prohibitions and limitations on discharges into public storm drainage system) regulates discharges into the St. John the Baptist Parish MS4.

Specifically, the *Policy Statement* guides the intent of the regulations with the following:

*(1) The public storm drainage system exists primarily to allow the removal of storm water runoff from public and private land surfaces. The control of discharges into said system and thus in the receiving stream which ultimately receives storm drainage water is manifestly in the public interest.*

*(2) The parish recognizes that, in order to facilitate disposal of wastewater, the public storm drainage system may serve on a limited basis as an alternative disposal method relieving the sanitary sewerage system of the burden of processing unpolluted wastewater. However, no treatment of wastewater is provided by this system. Therefore, discharge into the storm drainage system of any wastewater other than storm water runoff shall be permitted only subject to such treatment as may be necessary to bring such wastewater up to current acceptable levels as set by the U.S. EPA and the state department of natural resources.*

*(3) Nothing herein is intended to conflict with the state sanitary code, or with the state water pollution laws contained in R.S. 56:1435*

General Prohibitions and Limitations are outlined as follows:

*General prohibitions and limitations. No person shall discharge or deposit or cause or permit to be discharged or deposited to the public storm drainage system any wastewater containing at the point of connection to the system, any pollutant or other material of such character or quantity that will:*

*(1) Interfere with or damage the system or the efficiency thereof;*

*(2) Constitute a hazard to human or animal life, or to the stream or watercourse receiving the effluent of the system;*

*(3) Violate any pretreatment standard or effluent limitation;*

*(4) Cause the storm drainage system to violate any applicable NPDES permit or any applicable receiving water quality standard;*

*(5) Violate any of the specific prohibitions or limitations established by subsection (c) of this section.*

Item (c) *Specific Prohibitions and limitations* identifies specific discharges which are prohibited or allowed only in limited instances to the drainage system:

*Specific prohibitions and limitations. No person shall discharge or deposit or cause or permit to be discharged or deposited to the public storm drainage system any wastewater which has or contains any of the following:*

*(1) Oil and grease. Oils in such concentration as to create a sheen on the surface or more than five pounds per day of wax, grease or oil or at a concentration of more than 30 mg/l if emulsified, or containing substances which may solidify or become viscous at temperatures between 32 degrees and 150 degrees Fahrenheit (0 degrees and 65 degrees Celsius) at the point of discharge into the system.*

*(2) Flammable mixtures. Any gasoline, toluene, xylene, ethers, alcohols, benzene, naphtha, fuel or lubricating oils or other flammable liquid, solid or gas.*

*(3) Noxious material. Noxious or malodorous solids, liquids, or gases, which either singly or by interaction with other wastes, are capable of creating a public nuisance or hazard to life. In no event shall the threshold odor number of any industrial waste exceed a value of 2, or the color (true color) of any industrial waste exceed 50 color units.*

*(4) Radioactive wastes. Radioactive wastes or isotopes of such half-life or concentrations that they do not comply with regulations or orders issued by the appropriate authority having control over their use or which exceed the standards of the Louisiana Board of Nuclear Energy Division of Radiation, or which will or may cause damage or hazards to the system, to personnel operating the system, or to receiving waters or the biota therein.*

*(5) Solid or viscous wastes. Solid or viscous wastes that will or may cause obstruction to the flow in a drainage canal or otherwise interfere with the proper operation of the drainage system. Prohibited materials include, but are not limited to, grease garbage, animal guts or tissues, paunch manure, bones, hair, hides or fleshings, entrails, whole blood, feathers, ashes, cinders, sand, spent lime or lime wastes, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, spent grains, spent hops, waste paper, wood, plastic, tar, asphalt residues, residues from refining or processing of fuel or lubricating oil, and similar substances.*

*(6) Toxic substances. Any substances at concentrations considered or found to be toxic to aquatic, human or animal life including, but not limited to, hydrocarbons, pesticides, and herbicides. In no event shall any wastewater discharged into the system contain any substance in such concentration as has been or is declared to be toxic by the U.S. EPA pursuant to section 307(a) of the Clean Water Act.*

(7) *Incompatible wastes. Any waste containing any materials which form coatings on the sides or deposits on the bottoms of the drainage system such as, but not limited to, sand silt or lime wastes; or containing any other material harmful to or incompatible with the drainage system.*

(8) *pH. A pH of less than 5.0 or greater than 9.0.*

(9) *Temperature. A temperature of greater than 110 degrees Fahrenheit (43.3 degrees Celsius).*

(10) *Suspended and dissolved solids. Total dissolved solids (TDS) at a concentration greater than 2,000 mg/l; or total suspended solids (TSS) in excess of 42 pounds per day or at a concentration greater than 250 mg/l.*

(11) *BOD and COD. A BOD loading of more than 25 pounds per day or at a concentration greater than 200 mg/l, or a COD loading of more than 50 pounds per day or at a concentration greater than 400 mg/l.*

(12) *Dissolved oxygen. Dissolved oxygen of less than one mg/l.*

(13) *Heavy metals. Any of the following elements at concentrations greater than those indicated opposite the element:*

<b>Element</b>	<b>mg/l</b>
<i>Antimony</i>	<i>0.1</i>
<i>Arsenic</i>	<i>0.05</i>
<i>Barium</i>	<i>1</i>
<i>Beryllium</i>	<i>1</i>
<i>Bismuth</i>	<i>1</i>
<i>Boron</i>	<i>0.5</i>
<i>Cadmium</i>	<i>0.02</i>
<i>Chromium (Hexavalent)</i>	<i>0.1</i>
<i>Chromium (Trivalent)</i>	<i>0.1</i>
<i>Cobalt</i>	<i>0.2</i>
<i>Copper</i>	<i>0.5</i>
<i>Iron</i>	<i>15</i>
<i>Lead</i>	<i>0.1</i>
<i>Manganese</i>	<i>0.5</i>
<i>Mercury</i>	<i>0.001</i>
<i>Molybdenum</i>	<i>0.1</i>
<i>Rhenium</i>	<i>0.5</i>
<i>Selenium</i>	<i>0.02</i>
<i>Silver</i>	<i>0.05</i>
<i>Strontium</i>	<i>0.5</i>

Tellurium	0.5
Tin	1
Zinc	2

(14) Other elements and substances.

- a. Pathogenic bacteria or the indicator organisms of pathogenic bacteria in quantities greater than the densities prescribed by the U.S. Environmental Protection Agency and the state department of natural resources as the maximum limit for safe recreational contact waters.
- b. Cyanides or cyanogen compounds in excess of 0.1 mg/l as CN in the discharge waste.
- c. Phenols or other taste or odor producing substances in such concentrations as to effect a change in the taste or odor of the receiving stream.
- d. Hydrogen sulfide in excess of 1.0 mg/l as sulfide ion.
- e. Phosphorous as orthophosphate ion in excess of 1.0 mg/l.
- f. Inorganic Nitrogen in the form of nitrite or nitrate or nitrate or ammonia ion in excess of 5.0 mg/l.
- g. Any foaming or frothing agents of a persistent nature, such as, but not limited to, Anionic Surfactants.
- h. Any other agents, material, element or thing which either alone or by combination or interaction with other substances, will or may be harmful to the system, or to human or animal or aquatic life, or to the receiving waters.

Instances in which pretreatment is required are addressed by parts (d) and (e) as follows:

- (d) Pretreatment. In any case where pretreatment is required or is used to meet the requirements of this section with respect to a particular discharge, the pretreatment methods and system used shall comply with section 42-80 and must be approved by the parish in the permit issued to the discharger pursuant to section 42-81.
- (e) The discharger must submit to the parish photocopies of all NPDES discharge monitoring reports when these reports are routinely required by the U.S. EPA.

Industrial Waste Discharges

Industrial waste is addressed Chapter 42, Article IV, Sec. 42-81. – Industrial Waste Discharge Permit:

(a) Required.

- (1) All persons proposing to discharge any industrial waste as defined by section 42-73 must first obtain a discharge permit therefor; and no person shall

*discharge industrial waste except pursuant to and in compliance with such a permit issued by the parish pursuant to this section.*

*(2) The discharge permit required by this section shall be separate and distinct from any connection permit that may be required by section 42-76.*

*(3) No person shall commence any construction, modification or addition to any industrial facility which discharges or will discharge industrial waste, without first securing a discharge permit pursuant to this section.*

For facilities which are issued an industrial waste permit, inspection, surveillance, monitoring, and enforcement are addressed by Sections 42-83 and 42-84:

*Sec. 42-83. - Control of prohibited waste; powers and duties of parish.*

*(a) Regulatory actions. If wastewater is discharged or proposed to be discharged in violation of this article, the parish and/or the parish attorney may take such action necessary to:*

*(1) Prohibit the discharge.*

*(2) Require a discharger to demonstrate that in-plant modifications will reduce or eliminate the discharge of such substances in conformity with this article.*

*(3) Require pretreatment, including storage facilities, or flow equalization necessary to reduce or eliminate the objectionable characteristics or substances so that the discharge will not violate these rules and regulations.*

*(4) Require the person making, causing or allowing the discharge to pay any additional cost or expense for damages incurred by the parish for handling and treating excess loads imposed in the collection/treatment system and/or the storm drainage system.*

*(5) Take such other remedial action as may be deemed to be desirable or necessary to achieve the purpose of this article.*

*(b) Admission to property.*

*(1) Whenever it shall be necessary for the purpose of this article, the parish and/or the EPA, upon presentation of credentials, may enter upon any property or premises at reasonable times for the purpose of:*

*a. Copying any records required to be kept under the provisions of this article;*

*b. Inspecting any monitoring equipment or method;*

*c. Sampling any discharge of wastewater, inspecting any pretreatment facility and any part of the disposal system;*

*d. The parish and/or the EPA may enter upon the property at any hour under emergency circumstance.*

*(2) The parish and/or EPA when under the authority of this subsection shall observe the establishment's rules and regulations concerning safety, internal security, and fire*

*protection. Except when caused by negligence or failure of the company to maintain safe conditions, the parish and/or the EPA shall indemnify the company against loss or damage to its property by parish and/or EPA employees and against liability claims and demands for personal injury or property damage asserted against the company and proximate caused by any negligent act of the parish and/or the EPA while on the property.*

...

*Sec. 42-84. - Enforcement.*

*(a) Compliance order.*

*(1) Whenever, on the basis of any information available to it, the parish finds that any person is or is about to be in violation of this article, they shall issue a compliance order in accordance with this subsection, or he may bring a civil action in accordance with subsection (b) of this section. They may also issue a notice of termination of service in accordance with subsection (c) of this section.*

*(2) Any compliance order issued under this section shall be sent by certified mail, addressed to the principal place of business in the parish and shall state with reasonable specificity the nature of the violation, specify a time for compliance, which the parish determines is reasonable taking into account the seriousness of the violation and any good faith efforts to comply with applicable requirements. The order shall also provide an opportunity for the person to whom it is directed to confer with the parish concerning the alleged violation.*

*(b) Civil action. The parish and/or parish attorney is authorized to commence a civil action for appropriate relief, including a permanent or temporary injunction, for any violation for which the parish is authorized to issue a compliance order under subsection (a) of this section.*

*(c) Termination of service. The parish may take action to terminate service to any person for any violation for which he is authorized to issue a compliance order under subsection (a) of this section. The procedure for termination of service shall be as follows:*

...

*(d) Penalties.*

*(1) Any person who willfully or negligently violates this article or any condition of a permit issued under this article, shall be guilty of a misdemeanor.*

*(2) Any person who knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this article or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required to be maintained under this article, shall be guilty of a misdemeanor.*

*(3) Any person who violates any compliance order issued by the parish under subsection (a) of this section shall be guilty of a misdemeanor.*

*(4) These penalties are in addition to the other penalties provided by this article and said remedies do not exclude or supersede the penalties provided by state and federal law.*

#### **1.3.4 Development and Implementation of a Plan to Detect and Address Non-Storm Water Discharges into the MS4**

St. John the Baptist Parish is currently developing a formal plan for detecting and addressing non-storm water discharges, and also conforms to the requirements of the permit through various activities performed by multiple Parish departments.

The Division of Code Enforcement's main function is to receive and track the progress of remedial actions relative to residents' concerns and/or complaints. Upon both complaint and observation, Code Enforcement Inspectors conduct investigations of properties to determine whether alleged nuisance and zoning code violations are occurring within the Parish. If an alleged violation is confirmed, the Division will notify the property owner and provide him/her with the opportunity to correct said violation within a specified time frame. If the property owner does not correct the violation within the prescribed time frame, the Parish may schedule the case for an Administrative Hearing or have the work performed at the property owner's expense, depending on the nature and extent of the violation. The Department of Public Safety may also assist the Division of Code Enforcement in cases where hazardous materials may be encountered.

In cases that involve direct abatement by the Parish, such as a high grass violation, the property owner will be billed for the work performed and a lien placed against the property if the costs are not satisfied within the prescribed time frame. In cases that involve Administrative Hearings, should the Hearing Officer issue a judgment that recognizes the alleged violation, property owners will be assessed Administrative fees, court costs, and associated penalties; as well as be given a time frame to correct the violation. Should the violation remain uncorrected, the Parish may abate the violation at the property owner's expense and a lien placed against the property.

The Department of Planning processes applications and issues permits for both residential and commercial construction. The office is also charged with scheduling and coordinating utility inspections. Through inspection of construction sites, the Department of Planning detects and addresses non-storm water discharges by ensuring that construction sites throughout the Parish are properly managing and disposing of construction waste and debris.

Refer to Section 1.3.3 of this annual report for the ordinances relevant to non-storm water discharges which are enforced by the Department of Utilities and Department of Public Works.

#### **1.3.5 Notification of Public Employees, Businesses, and the General Public of Hazards Associated with Illegal Discharges and Improper Disposal of Waste**

St. John the Baptist Parish notifies public employees of the hazards of illegal discharges through municipal operations and good housekeeping measures. Refer to Section 1.6 of this annual report.

The Parish notifies businesses of the hazards associated with illegal discharges through its Non-Domestic Program, which requires any business that wishes to store, treat, transfer or dispose of solid, industrial and/or sewerage waste to obtain a permit.

### **1.3.6 Non-Storm Water Discharges which are Significant Contributors of Pollutants to the MS4**

St. John the Baptist Parish does not currently identify water line flushing, landscaping irrigation, rising ground waters, uncontaminated groundwater infiltration, uncontaminated pumped ground water, incidental discharges of potable water, foundation drains, air conditioning condensate, irrigation water, springs, water from crawl space pumps, footing drains, lawn watering runoff, water from individual residential car washing, flows from riparian habitats and wetlands, de-chlorinated swimming pool discharges, residual street wash water, or discharges or flows from fire-fighting activities as significant contributors of pollutants to the MS4.

St. John the Baptist Parish will evaluate the above discharges to the MS4 on an annual basis and establish public education, ordinances, or other regulatory mechanisms as necessary.

### **1.3.7 List of Occasional Incidental Non-Storm Water Discharges that will not be addressed as Illicit Discharges**

A list of occasional incidental non-storm water discharges that will not be addressed as illicit discharges has been developed as part of the Storm Water Management Program in 2018. These discharges are the following:

- Discharges or flows from firefighting activities (excludes predictable and controllable discharges from a firefighting training facility);
- Fire hydrant flushing;
- Potable water including: water line flushing using potable water, drinking fountain overflows; lawn watering runoff; similar sources of potable water;
- Uncontaminated air conditioning or compressor condensate;
- Residual street wash water and pavement wash waters where no detergents are used and no spills or leaks of toxic or hazardous materials have occurred (unless all spilled material has been removed);
- Routine external building wash down which does not use detergents;
- Drainage from landscape watering;
- Rising ground waters;
- Uncontaminated ground water infiltration (as defined at 40 CFR 35.2005(20));
- Uncontaminated pumped ground water;
- Foundation drains;
- Irrigation water;
- Uncontaminated spring water;
- Water from crawl space pumps;
- Footing drains;
- Water from individual residential car washing;
- Flows from riparian habitats and wetlands;
- Dechlorinated swimming pool discharges;
- Other similar occasional incidental discharges (e.g. non-commercial or charity car washes) where such discharges will not cause a problem either due to the nature of the discharge or controls the MS4 places on the discharge.

The Measureable Goals as established by the SWMP, and the implementation status of each, is listed below:

<b>Measureable Goal</b>	<b>Verify all contractors applying pesticides and herbicides are certified from the Louisiana Department of Agriculture and Forestry.</b>
<i>Implementation Status</i>	<i>Currently implementing; two licensed contractors are currently under contract to apply pesticides and herbicides in St. Joh the Baptist Parish; one contractor applies to drainage canals and the other all other grassed/vegetated areas such as right-of-ways. Certifications of the contracted applicators are included in Appendix B.</i>
<b>Measureable Goal</b>	<b>Maintain checklist for visual inspection and windshield screening of canals and outfalls throughout permit term.</b>
<i>Implementation Status</i>	<i>Currently implementing; inspection forms and procedures developed in 2018 with SWMP; inspections to begin in 2019.</i>
<b>Measureable Goal</b>	<b>Record and respond to all reported hazardous spills.</b>
<i>Implementation Status</i>	<i>Currently implementing; 5 spills were contained and cleaned by the Parish in 2018; 20 miscellaneous spills were reported on industrial sites and were mitigated and cleaned by the responsible parties.</i>
<b>Measureable Goal</b>	<b>Record and respond to all known sewer overflows.</b>
<i>Implementation Status</i>	<i>Currently implementing; 10 sewer overflows were recorded in 2018.</i>
<b>Measureable Goal</b>	<b>Maintain sewer point repair contract throughout entire permit term.</b>
<i>Implementation Status</i>	<i>Currently implementing; 180 point repairs were completed; 1,211 linear feet of sewer line were replaced; 16,398 linear feet of cured in place liner was installed; and 150 manholes were lined.</i>
<b>Measureable Goal</b>	<b>Implement capital improvement projects as necessary.</b>
<i>Implementation Status</i>	<i>Currently implementing; 10 capital improvement projects are currently in various stages of planning, design, or construction; one new vacuum truck to be purchased; summary of capital improvements provided in Appendix B.</i>
<b>Measureable Goal</b>	<b>Conduct visual screening of all major outfalls once per permit term.</b>
<i>Implementation Status</i>	<i>Currently implementing; procedures developed in 2018 and screening to begin in 2019.</i>

#### 1.4 Construction Site Storm Water Runoff Control

St. John the Baptist Parish established measureable goals in 2018 and is currently developing its formal program to reduce pollutants from construction activities that result in a land disturbance of greater than or equal to one acre. Currently, the Parish does have procedures requiring construction site operators to control waste, procedures for site plan review which incorporate consideration of potential water quality impacts, and procedures for site inspection and enforcement of control measures.

For information concerning ordinances requiring construction site operators to control waste, refer to Section 1.3.3 of this annual report.

Site plan reviews are conducted by the Department of Planning. The plan reviewer ensures that the construction site operator has provided adequate measures for construction debris management for the site. Construction sites are inspected by representatives from the Department of Planning. The Parish currently reviews site plans for all sites which require a building permit.

The Parish does not currently have a mechanism such as an ordinance or other regulatory mechanism to require erosion and sediment controls at construction sites. The Parish intends to evaluate and implement this mechanism while developing its program to reduce pollutants in storm water runoff to the MS4 from construction activities.

The Measureable Goals as established by the SWMP, and the implementation status of each, is listed below:

<b>Measureable Goal</b>	<b>Create an ordinance that addresses erosion and sediment control practices for construction sites by the end of the permit term.</b>
<i>Implementation Status</i>	<i>Not yet implemented; researching similar programs and establishing implementation strategy.</i>
<b>Measureable Goal</b>	<b>Implement a building permit review strategy to determine if an LDEQ storm water permit is necessary for areas of new construction by end of permit term.</b>
<i>Implementation Status</i>	<i>Not yet implemented; researching similar programs and establishing implementation strategy.</i>
<b>Measureable Goal</b>	<b>Conduct initial inspections of all construction sites 1 acre or greater. Follow up inspections will be conducted as warranted.</b>
<i>Implementation Status</i>	<i>Not yet implemented; researching similar programs and establishing implementation strategy.</i>
<b>Measureable Goal</b>	<b>Train Parish personnel on construction site run-off pollution prevention practices once per permit term.</b>
<i>Implementation Status</i>	<i>Not yet implemented; personnel training to begin in 2019.</i>
<b>Measureable Goal</b>	<b>Review all site plans prior to construction for use of control measures (BMPs).</b>
<i>Implementation Status</i>	<i>Currently implementing; 227 permit applications reviewed for construction waste control.</i>

### 1.5 Post-construction Storm Water Management in New Development and Redevelopment

As discussed in Section 1.4 of this annual report, the Department of Planning conducts plan reviews of all new development and redevelopment projects that disturb greater than or equal to one acre, including projects less than one acre that are part of a larger common plan of development or sale.

Currently, St. John the Baptist Parish is in the planning stages of a formal Low Impact Development Program. Development and implementation of the program will help avoid water quality degradation as well as reduce flooding potential caused by increased runoff rates associated with development. Decreasing water quality degradation within St. John the Baptist Parish will ultimately increase water quality within the Lake Pontchartrain Basin, as storm water from St. John the Baptist Parish drains directly into Lake Pontchartrain. Design guidelines and training will provide St. John the Baptist Parish with the tools necessary to implement this program for storm water pollution prevention.

The Measureable Goals as established by the SWMP, and the implementation status of each, is listed below:

<b>Measureable Goal</b>	<b>Review drainage calculations, construction plans and specifications from the owner or owner's representative of new development projects as needed.</b>
<i>Implementation Status</i>	<i>Preparing for implementation; criteria for storm water runoff from new development and redevelopment will be established upon development of the low impact development program.</i>
<b>Measureable Goal</b>	<b>Audit and revise Code of Ordinances to encourage the use of green infrastructure and other storm water management practices by end of permit term.</b>
<i>Implementation Status</i>	<i>Preparing for implementation; funding source has been identified and consultant will be selected in 2019.</i>
<b>Measureable Goal</b>	<b>Conduct post-construction site storm water management training for Parish personnel once per permit term.</b>
<i>Implementation Status</i>	<i>Preparing for implementation; training will be implemented upon development of the low impact development program.</i>
<b>Measureable Goal</b>	<b>Inspect all construction sites to ensure that storm water controls were built as designed.</b>
<i>Implementation Status</i>	<i>Preparing for implementation; inspectors will be trained upon development of the low impact development program.</i>

### 1.6 Pollution Prevention / Good Housekeeping for Municipal Operations

St. John the Baptist Parish implements pollution prevention and good housekeeping measures for its municipal operations through employee training and good housekeeping in various Parish departments.

During the reporting period, Parish employees attended various MS4 training programs administered through LDEQ, including training on general permits, Best Management Practices in Storm Water Pollution Planning and Development, MS4's, and TMDL's.

The Department of Public Works implements controls for reducing the discharge of pollutants from streets, roads, highways, parking lots, maintenance and storage yards, and maintenance shops using various Best Management Practices.

Parking lots for Parish buildings are maintained regularly by grass cutting and debris removal. Catch basins are cleaned on an annual basis, typically before hurricane season. Wet weather screenings are performed for catch basins during rain events. Additionally, the Roads Department responds to resident complaints, and cleans catch basins and storm sewers as required.

Major highways in the Parish are regularly swept.

The Measureable Goals as established by the SWMP, and the implementation status of each, is listed below:

<b>Measureable Goal</b>	<b>Develop and update Spill Prevention, Control and Countermeasure Plans for Parish facilities as required by LDEQ.</b>
<i>Implementation Status</i>	<i>Currently implementing; in 2018 SPCCs were completed; SPCCs were developed for Station No. 3 and Well No. 2 Facility</i>
<b>Measureable Goal</b>	<b>Develop and update Storm Water Pollution Prevention Plans for Parish facilities as required by LDEQ.</b>
<i>Implementation Status</i>	<i>Currently implementing; in 2018 3 SWPPPs were completed; SPCCs were developed for the Woodland WWTP, River Road WWTP, and Garyville WWTP.</i>
<b>Measureable Goal</b>	<b>Train Parish personnel on hazardous waste disposal, spill cleanup, storm water hazards and pollution prevention once per permit term.</b>
<i>Implementation Status</i>	<i>Preparing for implementation; training will begin in 2019.</i>
<b>Measureable Goal</b>	<b>Develop maintenance procedures for the storm sewer system by the end of the permit term.</b>
<i>Implementation Status</i>	<i>Developing plan for implementation.</i>
<b>Measureable Goal</b>	<b>Inspect all Parish facilities for good housekeeping practices once per permit term.</b>
<i>Implementation Status</i>	<i>Preparing for implementation; inspections will begin in 2019.</i>
<b>Measureable Goal</b>	<b>Sweep streets as needed throughout permit term.</b>
<i>Implementation Status</i>	<i>Currently implementing and developing protocols for data tracking.</i>

## **SECTION 2: SUMMARY OF DATA ACCUMULATED DURING THE REPORTING PERIOD**

### **2.1 Public Education and Outreach Data**

During the reporting period, St. John the Baptist Parish completed the following activities:

- Operation and maintenance of one (1) trash drop-off facility.
- Maintained garbage collection information on Parish website.
- Operation and maintenance of 8 recycling facilities.
- Maintained recycling information on Parish website.
- Over 100 flyers distributed for both the Spring Clean Sweep and Household Hazardous Waste Collection Day. Flyers distributed to churches, schools, libraries, and mailed to Parish business list.
- Two weeks of pickup for Christmas tree recycling program.
  - 300 trees collected
- Household Hazardous Waste Collection day, held April 7, 2018 in conjunction with St. Charles Parish:
  - Tires – 1,850 lbs.
  - Oil/Anti-freeze – 2,632 lbs.
  - Bulbs/Lamps – 128 lbs.
  - Batteries – 1,958
  - Latex Paint – 1,200 lbs.
  - Scrap Metal – 740 lbs.
  - Used Electronics – 8,663 lbs.
  - Oil Based Paint, Flammables, Aerosols, poisons – 1,100 lbs.
  - Treatment and Disposal – 16,772 lbs.
  - Of the total 81,806 pounds collected, the St. John site collected 35,043 pounds, approximately 42.8% of the total amount.

### **2.2 Public Involvement and Participation Data**

During the reporting period, St. John the Baptist Parish completed the following activities:

- Organization and participation in Spring Clean Sweep, held April 21, 2018. Over 100 volunteers participated and over 50 bags of trash collected.
- Leaders Against Litter, held March 23, 2018.
- Household Hazardous Waste Collection day, held April 7, 2018 in conjunction with St. Charles Parish:
  - Tires – 1,850 lbs.
  - Oil/Anti-freeze – 2,632 lbs.
  - Bulbs/Lamps – 128 lbs.
  - Batteries – 1,958
  - Latex Paint – 1,200 lbs.
  - Scrap Metal – 740 lbs.
  - Used Electronics – 8,663 lbs.
  - Oil Based Paint, Flammables, Aerosols, poisons – 1,100 lbs.
  - Treatment and Disposal – 16,772 lbs.
  - Of the total 81,806 pounds collected, the St. John site collected 35,043 pounds, approximately 42.8% of the total amount.

- One public hearing held July 31, 2018 to solicit input on the SWMP from the St. John the Baptist Parish Utility Board.

### **2.3 Illicit Discharge Detection and Elimination Data**

During the reporting period, St. John the Baptist Parish completed the following activities:

- Maintained contracts with 2 licensed pesticide and herbicide contractors.
- 5 hazardous material spills contained and cleaned.
  - 20 additional miscellaneous spills reported on industrial sites that were mitigated and cleaned by responsible parties.
- 10 sewer overflows addressed, cleaned, and reported.
- 180 sewer point repairs completed.
- 1,211 linear feet of sewer line replaced.
- 16,398 linear feet of sewer main lined with cured in place liner.
- 150 sewer manholes lined.
- 10 sewer capital improvement projects in various stages of planning, design, or construction.
- 36 resident complaints pertaining to storm water recorded.
- 67 work orders for cleaning of drain lines, catch basins, drop inlets, and floatable collection from canals.

### **2.4 Construction Site Storm Water Runoff Control Data**

During the reporting period, St. John the Baptist Parish completed the following activities:

- 227 permit applications reviewed for construction site waste control.

### **2.5 Post-Construction Storm Water Management in New Development and Redevelopment Data**

No reportable data from the reporting period was available at the time of preparation of this annual report. Refer to Section 1.5 for actions completed during the reporting period.

### **2.6 Pollution Prevention / Good Housekeeping for Municipal Operations Data**

During the reporting period, St. John the Baptist Parish completed the following activities:

- 2 Spill Prevention, Control, and Countermeasure Plans (SPCC) completed:
  - Station No. 3
  - Well No. 2 Facility
- 3 Storm Water Pollution Prevention Plans (SWPPP) completed:
  - Woodland WWTP
  - River Road WWTP
  - Garyville WWTP
- 1,568 street segments swept.

## **SECTION 3: STORM WATER ACTIVITIES TO BE UNDERTAKEN DURING NEXT REPORTING CYCLE**

### **3.1 Public Education and Outreach Activities**

St. John the Baptist Parish will continue to provide its residents with the information they need to reduce storm water pollution on an individual basis, such as providing trash drop off facilities and the Christmas tree recycling program. In addition, St. John the Baptist Parish will investigate the implementation of the following activities:

- Seek funding and implementation for the storm drain marking program.
- Establish protocols for tracking of quantity of educational materials distributed.
- Organize and participate in Spring Sweep, Fall Sweep, and Household Hazardous Waste collection day.
- Record resident complaints pertaining to storm water.
- Update Parish website pertaining to storm water.

### **3.2 Public Involvement and Participation Activities**

St. John the Baptist Parish will continue to keep its residents involved by providing motor vehicle fluid drop-off facilities, household hazardous waste collection days, and organizing volunteer cleanup events.

Additionally, the Parish will investigate the implementation of the following activities:

- Organize and participate in Spring Sweep, Fall Sweep, and Household Hazardous Waste collection day.
- Attend civic association meetings and Utility Board meetings.
- Update Parish website pertaining to storm water.
- Conduct public hearings for any major updates to the Storm Water Management Plan.
- Conduct public hearings for any new storm water ordinances.

### **3.3 Illicit Discharge Detection and Elimination Activities**

St. John the Baptist Parish will continue to develop a program for illicit discharge detection and elimination, led by the Department of Public Works. In addition to continuing to perform the activities identified in Section 1.3, the Parish will investigate the implementation of the following:

- Maintain list of certified pesticide and herbicide contractors.
- Begin canal and outfall inspection program for illicit discharges and record inspections.
- Record and respond to all reported hazardous material spills.
- Record and respond to all known sewer overflows.
- Maintain sewer point repair contract.
- Implement capital improvement projects as necessary.
- Continue street sweeping activities.
- Continue drain line and catch basin cleaning.

### **3.4 Construction Site Storm Water Runoff Control Activities**

The Parish will continue to review site plans prior to construction and enforce existing ordinances. In addition, the Parish will investigate the implementation of the following activities:

- Ordinance that addresses erosion and sediment control for construction sites.
- Building permit review strategy to determine if a LDEQ permit is necessary for areas of new construction.
- Development of construction site inspection program.
- Training of Parish personnel on construction site inspections.

### **3.5 Post-construction Storm Water Management in New Development and Re-development Activities**

St. John the Baptist Parish will continue to perform the activities described in Section 1.5. In addition, the Parish will investigate the following activities for implementation:

- Develop strategies which include a combination of structural and/or non-structural BMP's for the community of St. John the Baptist Parish.
- Review existing ordinances to protect sensitive areas, maintain open space, provide buffers along sensitive water bodies, minimize impervious surfaces, and minimize disturbance of soils and vegetation.

### **3.6 Pollution Prevention / Good Housekeeping for Municipal Operations Activities**

In addition to the activities identified in Section 1.6, the Parish will investigate the implementation of the following activities:

- Continue to create/update SPCCs and SWPPPs for municipal facilities.
- Begin to inspect Parish facilities for good housekeeping practices.
- Continue street sweeping program.
- Training programs for Parish employees to reduce storm water pollution.
- Develop a list of individual LPDES permit holders within the MS4.

#### SECTION 4: PROPOSED CHANGES TO THE STORM WATER MANAGEMENT PROGRAM

In August of 2018, St. John the Baptist Parish created its Storm Water Management Program (SWMP) to both comply with the Municipal Separate Storm Sewer System (MS4) permit and to establish best practices for storm water throughout St. John the Baptist Parish. The plan was presented to the Parish Utility Board in July, 2018 and accepted by the Administration in August, 2018.

In January, 2019 St. John the Baptist Parish submitted its Notice of Intent for coverage under the new permit for Small MS4's issued by DEQ in September, 2018. At this time, the Parish reviewed its SWMP and made minor revisions to measurable goals.

During the preparation of this Annual Report, St. John the Baptist Parish identified two additional measurable goals that require minor revision for efficient implementation. Those revisions are:

**Control Measure:** *Public Involvement and Participation*  
**Measureable Goal:** *Keep the Parish website updated throughout the entire permit term with links to the final MS4 Program Plan and annual performance report.*  
**Revised Measureable Goal:** *Update the Parish website annually throughout the entire permit term with links to the final MS4 Program Plan and annual performance report.*  
**Reason for Revision:** *Revised language to measurable format.*

**Control Measure:** *Public Involvement and Participation*  
**Measureable Goal:** *Storm Water personnel will attend all civic association meetings.*  
**Revised Measureable Goal:** *Storm Water personnel will attend all Utility Board meetings and as many civic association meetings as possible, especially those at which storm water issues will be discussed.*  
**Reason for Revision:** *More efficient allocation of Parish personnel.*

**Control Measure:** *Public Involvement and Participation*  
**Measureable Goal:** *Participate in Christmas Tree Collection and Marsh Restoration Program once per year.*  
**Revised Measureable Goal:** *Pursue participation in Christmas Tree collection and recycling programs annually.*  
**Reason for Revision:** *Programs available to the Parish change annually. Also, Christmas trees are not always used for marsh restoration. In some programs they are recycled into mulch for reuse in landscaping applications.*

## **SECTION 5: OTHER GOVERNMENTAL ENTITY PERMIT OBLIGATIONS**

St. John the Baptist Parish does not currently rely on any other governmental agencies to satisfy permit obligations.

## **APPENDIX A: PUBLIC EDUCATION AND PARTICIPATION DOCUMENTATION**

# ST. JOHN

## THE BAPTIST PARISH

(<http://sjbparish.com>)

## Wastewater Collection System

---

The wastewater collection distribution system consists of 190 miles of collection lines and approximately 156 lift stations. Our certified employees work together in teams to monitor and repair equipment failures in the system.

### **NOTICE TO RESIDENTS:**

#### **PROPER USE OF THE WASTEWATER COLLECTION SYSTEM**

During the past several months, Utility employees have been responding to collection system blockages and overflows at the lift station and manholes. These blockages and overflows are caused by many issues; however, several were directly due to non-sanitary trash in the collection system. This material finds access to the collection system from homes and outside open drains and can cause major blockages, overflows and mechanical failures around the area.

The Parish spends valuable time and public dollars addressing these blockages and overflows. The public should be aware that proper use of the sanitary collection system. The Parish is requesting resident support for its efforts to provide public education on proper use of the sanitary collection system. Residents should use the sanitary collection system for approved liquid discharges from homes and businesses.

**APPROVED ITEMS**                      Toilets, hand basins, dishwashers, washing machines and other normal household liquids.

**UNAPPROVED ITEMS**                Towels, rags, fiber material, sanitary napkins, and other solid material should be placed in trash cans or bags for disposal.

Oil and grease material such as cooking oils, fats and lards should always be kept from the collection system.

Rocks, dirt, chemicals, fuel any other type of foreign matter.

The Parish Utility Department is providing this guidance to the residents to help minimize system costs and mechanical repairs. Utility Department funds are provided by the residents and problems generated by improper use of the sanitary collection system are a waste of taxpayer dollars.

The Parish is requesting your assistance with this problem. If you have any questions or observe improper use of the sanitary collection system, please contact the Utility Department at 985-651-6800.

## Garbage Collection / Solid Waste

---

**Metro Service Group, LLC**  
434 Belle Terre Blvd., Suite A  
LaPlace, LA 70068

Phone: 985-359-2116

Toll Free- 844-520-8331

Fax: 985-359-8905

**Web Site:** <http://metroservicegroup.com/> (<http://metroservicegroup.com/>)

**Email:** [stjohn@metroservicegroup.com](mailto:stjohn@metroservicegroup.com) (<mailto:stjohn@metroservicegroup.com>)

**File a complaint:** <https://metroservicegroup.com/contact-us> (<https://metroservicegroup.com/contact-us>)

### Garbage/Debris Information

**Household Garbage**- twice a week collection Metro Service Group, LLC

**Trash & Bulky Waste** - once a week collections by Metro Service Group (on the second collection day - only 2 cubic yards per collection)

**White Goods** (Hot Water Heaters, Washers, Dryers, Refrigerators, Freezers) - on-call collection. Call Metro Service Group at 1-844-520-8331 or email [stjohn@metroservicegroup.com](mailto:stjohn@metroservicegroup.com) to schedule pick up.

**Vegetative Debris** - Tree limbs and branches are collected by the St. John Public Works Department on Monday through Thursday. Please call 985-652-4815 to request collection or submit a work order request through the work order system located at [sjbparish.com](http://www.sjbparish.com) ([http://www.sjbparish.com/public\\_works\\_select.php](http://www.sjbparish.com/public_works_select.php))

**Storm Related Debris**— Any storm related debris is collected by the St. John Public Works Department on Friday and Saturday. Call 985-652-4815 to request collection or submit a work order request through the work order system located at [sjbparish.com](http://www.sjbparish.com) ([http://www.sjbparish.com/public\\_works\\_select.php](http://www.sjbparish.com/public_works_select.php)).

**New Cart/Replacement Cart Requests** – Please call 1-844-520-8331 or email [stjohn@metroservicegroup.com](mailto:stjohn@metroservicegroup.com) to request service. Carts will be serviced within 7 business days.

**Recycle Yard** - The Parish recycle yard located behind the Percy Hebert Building, 1801 W. Airline Hwy, LaPlace, consists of 2-30 yard dumpsters and several bins to recycle newspaper, books, motor oil, and aluminum cans. Residents can bring up to 5 tires a day to the yard. The recycle yard is opened from 7:00 a.m. to 3:00 p.m. Monday through Saturday and is manned by one employee.

**DO NOT PLACE LARGE PILES OF DEBRIS UNDER POWER LINES, LOW HANGING TREE BRANCHES, OR NEAR MAILBOXES. TRUCKS WILL NOT BE ABLE TO REMOVE THE DEBRIS UNTIL IT'S RELOCATED.**

# GREEN CANS SHOULD BE FILLED WITH TRASH/DEBRIS BEFORE OTHER PILES ARE PLACED ON THE SIDE FOR COLLECTION.

## Metro Service Group Residential Route Schedule:

### Monday and Thursday:

Riverland Estates, Cypress St, River Forest Sub, Ridgewood Sub., Main St, Hwy 51, Indigo Lake, The Myrtles, Cambridge, Elm St, McReine, Spring Meadows, Ingleside, Hemlock, Palmetto, Palm St, Mahogany, Montegut Dove St, some areas of Riverlands Heights, residents that live on New Port, Oak Alley, Welham Loop, Lafreniere Dr., Rienzi, Parlange Loop, Melrose, Chatsworth, and Ellerslie.

### Tuesday and Friday:

Carrollwood Ave, Greenwood Dr, Madewood Dr, Country Club Dr, Belle Terre Sub, Riverlands Heights, St Andrews Estates, Live Oak Landing Sub, W Frisco, Sugar Pine, Dupont Curve, Fir St, Foxwood Mannor, Doisier, South Side of West 5th St, Westbank

### Wednesday and Saturday:

Mt Airy, Reserve, Garyville, LaPlace Park, Star Terrace, Homewood, Belle Pointe

# GARBAGE & DEBRIS REMOVAL INFORMATION

## ST. JOHN PARISH RECYCLING CENTERS

Glass will NOT be taken at these locations.

### ITEMS ACCEPTED INCLUDE:

#### Metals

Aluminum, Tin & Steel Cans, Empty Aerosol Cans, Aluminum Foil

#### Recyclable Plastic

Water, Soda, & Juice Bottles, Milk Jugs, Shampoo, Conditioner, & Liquid Soap Bottles, Detergent Bottles, Bleach & All Purpose Cleaner Bottles, Yogurt & Margarine Tubs

#### Paper

Newspaper & Magazines, Paper Bags, Catalogs & Pamphlets, Boxboard (thin cardboard), Phone Books & Greeting Cards, Shredded Paper

#### Corrugated Cardboard

(NO Pizza boxes)  
Cardboard must be free of contaminates, such as packing materials, styrofoam, and plastic. Must be folded and flattened.

### HOLIDAYS

No Garbage Collection on Sundays, New Year's Day, Mardi Gras Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas day. Garbage collected within 48 hours after a holiday.

### GARBAGE PLACEMENT

Per Ordinance 12-34: "Garbage cans or containers may not be placed at street not sooner than 12:00 Noon on the day before the scheduled collection day, and must be removed from street by 12:00 Noon on the day following collection."

### CONTRACTORS

Contractors working in residential areas are responsible for discarding their material.

**COMPLAINTS:** All complaints shall be made directly to Metro Services by calling 985-359-2116.

**ST. JOHN**

or visit [sjbparish.com](http://sjbparish.com)

# St. John Parish Recycling

ST. JOHN – The Recycling Program has been expanded in St John due to increase use of the drop-off bins located throughout the parish. The Recycling bins accept paper, plastic, and aluminum. Glass will NOT be taken at these locations. The parish has contracted with SWDI, a local garbage collector, to provide the recycling bins at the locations and will be responsible for picking up the bins on an as needed basis.

The bins at the following locations will be picked-up monthly until the need increases for additional pick-ups per month. The funding for the program is being used from the parish's Solid Waste Account.

## The locations are:

- **Westside Fire Station - 3347 Hwy. 18 Edgard**
- **Edgard Courthouse - 2393 Hwy 18 Edgard**
- **Service Center - 492 Historic Main St. Garyville**
- **Health and Human Services - 128 Central Ave Reserve**
- **Percy Hebert Building - 1801 W. Airline Hwy. LaPlace**
- **St. Andrews Fire Station - 1703 St. Andrews Blvd. LaPlace**
- **Pleasure Bend Fire Station**

## Parish Recycle Yard

Our Parish recycle yard consists of 2- 30 yd dumpsters and several bins to recycle newspaper, books, motor oil, and aluminum cans. Residents can bring up to 5 tires a day to the yard. The recycle yard is opened from

Monday – Friday 7:00am – 5:00pm

Saturday 7:00am to 3:00pm

1801 W. Airline Hwy, Laplace, LA 70068

Phone: 985-652-6765

## WHAT TO RECYCLE AND WHAT NOT TO RECYCLE

<b>DO Recycle:</b>	<b>DON'T Recycle:</b>
It is okay for you to recycle the following:	It is NOT okay for you to recycle the following:

<p>Newspaper</p> <p>Magazines</p> <p>Catalogs &amp; pamphlets</p> <p>Junk Mail &amp; Envelopes</p> <p>Home Office Paper</p> <p>    Manilla Envelopes, File Folders</p> <p>Paper Bags</p> <p>Boxboard (thin cardboard)</p> <p>    Cereal Boxes, Shoe Boxes, Soda Cartons</p> <p>Phone Books</p> <p>Holiday &amp; Greeting Cards</p> <p>Dark-Colored Envelopes &amp; Folders</p> <p>Shredded Paper</p> <p>Aluminum Cans</p> <p>Tin &amp; Steel Cans</p> <p>Empty Aerosol Cans</p> <p>Aluminum Foil</p> <p>Recycable Plastic</p> <p>    Water, Soda, &amp; Juice Bottles</p> <p>    Milk Jugs</p> <p>    Shampoo, Conditioner, &amp; Liquid Soap Bottles</p> <p>    Detergent Bottles</p> <p>    Bleach &amp; All Purpose Cleaner Bottles</p> <p>    Yogurt &amp; Margarine Tubs</p> <p>Corrugated Cardboard (except Pizza boxes)</p> <p>    Cardboard must be free of contaminates, such as packing materials, styrofoam, and plastic. St. John The Baptist Parish News Release

## Leaders Against Litter Kicks off Spring Beautification Efforts

Monday, March 26, 2018

St. John the Baptist Parish –Parish President Natalie Robottom and Council will join the Keep St. John Beautiful Committee at Tuesday night’s Council Meeting to proclaim April as Keep St. John Beautiful (KSJB) Month. To kick off beautification efforts, Parish President Natalie Robottom, Judge Sterling Snowdy, KSJB Committee Chairman Greg “Za” Maurin and numerous community leaders led the anti-littering efforts with the Leaders Against Litter Golden Litter Grab last Friday morning. Sponsored by Lt. Governor Billy Nungesser, the group picked up large bags of litter along Belle Terre Blvd and Airline Highway in LaPlace.

On Saturday, April 21, 2018 clean-up efforts will continue during the Annual Spring Clean Sweep which will consist of a parish wide clean-up day involving many government agencies, neighborhood associations, civic groups, schools, and churches. The Spring event will kick off at 8:30 a.m. at the Thomas F. Daley Memorial (Hwy 51) Park with distribution of garbage bags, gloves, trash clamps and t-shirts. All groups, organizations and individuals are invited to join us on this morning for cleanup and supplies will be provided.

In appreciation of cleanup efforts, free food, refreshments, and music will be provided following the clean-up activities on April 21st. Groups and individuals wanting to participate and volunteer are asked to sign up in advance at [sjbparish.com](http://sjbparish.com) or contact Terri Abadie at the Parish office at 985-652-9569. Groups needing service hours are welcome.

In addition, St. Charles and St. John the Baptist Parishes industries will host the annual Household Hazardous Materials Collection Day from 9:00 a.m. to 1:00 p.m. on Saturday, April 7, 2018. The goal of this event is to provide households an opportunity to properly dispose or recycle materials that are inappropriate for curbside pickup including paint, tires, used oil, batteries, scrap metal, appliances, electronics, etc. The collection location in St. John the Baptist Parish is at the Plaza LaPlace Shopping Center at 1921 Airline Highway in LaPlace, also known as the New Wine Ministries parking lot.

St. John The Baptist Parish News Release

## Spring Clean Sweep a Success

Tuesday, April 24, 2018

St. John the Baptist Parish - Over a hundred volunteers including residents, community organizations, government agencies, churches, schools and businesses participated in the Spring Clean Sweep event on Saturday, April 21, 2018. The event is organized bi-annually by St. John the Baptist Parish Officials and the "Keep St. John Beautiful" (KSB) Committee to promote community beautification.

Parish leaders and the KSB Committee Chairman Za Maurin welcomed volunteers on Saturday as they gathered at the Hwy. 51 Park to kick off the cleanup and gather supplies. All participants received garbage bags, gloves, t-shirts, masks and trash clamps in support of the efforts.

The Clean Sweep committee assigned volunteers to major thoroughfares throughout the parish if they hadn't already chosen an area for cleaning. More than 50 trash bags were picked up and volunteers returned to the Park after for jambalaya and drinks to celebrate a successful cleanup. Raising Canes of LaPlace provided sweet tea and lemonade for the event.

In addition to litter abatement, residents are reminded to only allow rain to go down the storm drain.

Don't sweep or dump leaves, grass clippings, litter, motor oil or anything else into the street, or your storm drain. Leaves, grass and debris clogs culverts and storm drains causing flooding.

For additional anti-littering tips and efforts, please visit the "Keep America Beautiful" website at [www.kab.org](http://www.kab.org). The Parish recycle yard is open from 7:00 a.m. to 3:00 p.m. Monday – Saturday and is located at 1801 W. Airline Hwy, LaPlace. Recycle bins are also located at: the Westbank Recreational Complex Edgard Courthouse, Garyville Service Center, Health and Human Services, St. Andrews Fire Station and Pleasure Bend Fire Station. More information regarding the Fall Clean Sweep will be released once finalized.

St. John The Baptist Parish News Release

## Christmas Tree Collection Begins Monday

Thursday, January 4, 2018

ST. JOHN THE BAPTIST PARISH – Beginning Monday, January 8 for two weeks, the St. John Parish Public Works Department will collect Christmas trees throughout the parish. Residents should place their trees curbside for pick-up instead of discarding them in the landfill. All trees should be completely stripped of decorations. Flocked or artificial trees will not be picked up.

Residents are encouraged to call the Public Works Department at 985-652-4815 to request pick-up.

St. John The Baptist Parish News Release

# Parish President Natalie Robottom Speaks at the National Planning Conference

## Parish President Natalie Robottom Speaks at the National Planning Conference

Tuesday, April 24, 2018

St. John the Baptist Parish - St. John the Baptist Parish (SJB) President, Natalie Robottom and John Lane, St. Bernard's Executive Director for Coastal Operations, spoke to a national planning audience on Sunday evening at the 2018 National Planning Conference held in New Orleans.

The panel session, titled "Leadership along a Disappearing Coast," was facilitated by SJB Planning & Zoning Director Alex Gelpi Carter AICP and Coastal Zone Administrator Evelyn Campo, who organized the panel discussion around future development and the natural environment issues, with a specific focus on the political and physical challenges of flooding and coastal land loss. As a former president of Louisiana Parishes Against Coastal Erosion (La PACE), Robottom provided first-hand knowledge of the negative impacts of an eroding coast and the regional approach required to prevent future land loss.

President Robottom discussed St. John's participation and support for Louisiana's 2017 Comprehensive Master Plan for a Sustainable Coast, inter-agency collaboration with state and federal partners and regulatory entities, and the strategy for addressing flooding throughout the parish and region. She and Lane also highlighted La PACE's approach to uniting leadership across the region in providing a statewide response to emergencies and coastal land loss.

"This session was a great opportunity to convey to planners from across the globe who are concerned with rising sea levels and increased flood risks our demonstrated capacity in Louisiana to combat flood risks and emphasize the results of our hard fought efforts," said Parish President Robottom. "Building a better St. John Parish, River Region and ultimately State of Louisiana requires communication, cooperation and collaboration across parishes and governmental entities - and I was pleased to lead the conversation."

In another aspect of the conference, representatives of the SJB Planning & Zoning Department previously referenced, with the addition of Rene Pastorek, Planning & Zoning Manager, unveiled a poster in the Exhibit Hall titled, "Promoting Inclusiveness in Preservation Planning." The poster detailed the timeline for establishing a Historic Preservation Committee, developing a work plan and revitalization strategy, approval of four Historic Districts and designation of SJB as a Certified Local Government.

The National Planning Conference brings together thousands of planners, planning commissioners, appointed and elected officials, and students from around the world to discuss fresh ideas and innovative planning strategies and trends that motivate builders to plan smarter. The conference is held in various cities around the country each year.

## ADDENDUM No. 1 CHEMICAL CONTROL AND CANAL MAINTENANCE

Be it known, that on this 14<sup>th</sup> day of November, 2017, St. John the Baptist Parish Council, (hereinafter referred to as "PARISH") and Roussel's Land-Care Services, Inc. (hereinafter referred to as "CONTRACTOR"), do hereby amend its contract dated on November 12, 2014.

### TERM OF CONTRACT

This Contract originally began on November 12, 2014 and terminates three (3) years thereafter unless mutually extended by Parish and Contractor. The Parish may extend the term of this Contract for two additional one (1) year terms by written notice to the Contractor within thirty (30) days of its termination date.

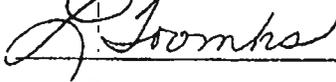

Addendum No. 1 extends the contract term for an additional one (1) year beginning November 12, 2017 and ending November 11, 2018 while maintaining the current pricing to the Parish.

All terms and conditions not addressed herein shall remain as stated in the November 12, 2014 Contract.

THUS DONE AND SIGNED in St. John the Baptist Parish, Louisiana on the day, month and year first written above

IN WITNESS WHEREOF, the parties have executed this Agreement as of this 14<sup>th</sup> day of November, 2017.

### CONTRACT FOR CHEMICAL CONTROL AND CANAL MAINTENANCE

Be it known, that effective this 12 day of November, 2014, St. John the Baptist Parish Council; (hereinafter sometimes referred to as "Parish") and ROUSSEL'S LAND-CARE SERVICES, INC. (hereinafter referred to as "Contractor"), do hereby enter into this "Contract" under the following terms and conditions.

#### SCOPE OF SERVICES

Contractor hereby agrees to provide **Canal Spraying Services**, as stated in **Exhibit A: Scope of Work**.

#### PAYMENT TERMS

In consideration of the services described above, Parish hereby agrees to pay the Contractor in accordance with the pricing schedule listed in **Exhibit B: Pricing Schedule**. Said pricing schedule not to exceed \$112,000.00 annually except as otherwise agreed to by Parish.

All payments must be approved by the **Chief Financial Officer** and the **Director of Purchasing and Procurement**.

#### INSURANCE

Contractor shall meet or exceed the Parish's Insurance Requirements as listed in **Exhibit C: Insurance Requirements**.

#### MONITORING PLAN

This Contract shall be administered and monitored by the **Director of Public Works** and the **Chief Financial Officer** as plans are developed. The monitoring plan will include a review of the services delineated in **Exhibit A: Statement of Work** to ensure completion, a review of invoices for accuracy prior to reimbursement of services, etc. The Contractor shall submit a monthly summary of activities in accordance with the attached statement of work.

#### TAXES

Contractor hereby agrees that the responsibility for payment of taxes from the funds thus received under this Contract and/or legislative appropriation shall be Contractor's obligation. Contractor is required to provide a completed W-9 form prior to commencement of work.

#### TERMINATION FOR CAUSE

Parish may terminate this Contract for cause based upon the failure of the Contractor to comply with the terms and/or conditions of this Contract, provided that Parish shall give the Contractor written notice specifying the Contractor's failure.

# St. John Parish-River Road COLLECTION SYSTEM OVERFLOW LOG

AI Number 19225

LPDES No LA0069868

UPDATE MONTH: August 31, 2018

DATE	LOCATION	STREET ADDRESS	START TIME	END TIME	VOL (gal)	CAUSE	CORRECTIVE ACTION	AREA CLEAN	AREA CL2
4/7/2018	RR STP	144 Water Plant Rd	7:00 AM	10:30 AM	N/A	Power Outage	due to weather power surge caused phase monitor to burn up shut off control power for all pumps so pump could not run changed out phase monitor	Yes	Yes
8/8/2018	RR STP	144 Water Plant Rd	7:30 PM	7:00 AM	N/A	Rainfall/Equip F	Effluent pit overflowed due to the pumps electrical failure	Yes	Yes
8/8/2018	Ashley Dr/Lark St	101 Lark St	8:15 AM	10:00 AM	250	Equip Failure	Mechanical Failure @ Main St LS #1 Pump one seized up & pump two tripped breaker. Pump one was reset & put back in normal operation & a bypass pump for station was installed to help normal operations	Yes	Yes
8/12/2018	Cambridge Dr	Corner of Williamsburg & Cambridge Dr	3:00 PM	4:00 PM	100	Electrical failure	LS having electrical problem caused overflow, both overloads on the pumps needed to be reset	Yes	Yes
8/12/2018	Cambridge Dr	1111 Cambridge Dr	7:30 AM	10:00 AM	600	Rainfall/Power Outage	station losing power from entergy, once the problem was found Entergy was notified & came out to restore power	Yes	Yes

Project Description	Project Budget (Eng. And Construction)	Project Status
LaPlace Main Wastewater Pump Station	\$1,101,960.00	Project Bids on February 21st
River Rd. WWTP SCADA and Controls	\$375,000.00	100% Design Complete and Project will Advertise for Bids in February 2019
Wastewater Collection System Lift Station and Force Main Capacity Evaluation	\$55,000.00	Evaluation ongoing to be complete by August 31, 2019
Woodland WWTP Tertiary Filters Rehabilitation	\$1,000,000.00	Grant funding agreement signed in January 2019. Need to select an engineer to design the repairs to the Filters.
Woodland WWTP Sludge Processing Replacement	\$750,000.00	Awaiting grant funding agreement. Expected in February 2019.
Reserve Wastewater Treatment Pond	\$8,948,889.70	Construction ongoing. Construction completion expected March 31, 2019
I/I LDEQ Loan	\$1,359,000.00	I/I work is complete and closeout of loan will be done after the Sewer Vacuum Truck project is complete
Purchase of Sewer Cleaner/Vacuum Truck (LDEQ Loan)	\$350,000.00	Project will advertise for bids in February 2019
Garyville WWTP Tank Rehabilitation	\$1,100,000.00	Need to select an engineer to design the repairs to the Garyville WWTP
Decommission of Belle Point WWTP	TBD	Need to develop a scope and budget for this project
River Rd. Treatment Plant Headworks	TBD	Need to develop a scope and budget for this project

**APPENDIX C: CONSTRUCTION SITE RUNOFF CONTROL DOCUMENTATION**

## **Commercial/Industrial Construction Inspection Guidelines**

**You must call for an inspection during each phase of construction**

1. Temporary power pole **Call 1-985-655-1070 (South Central)**
2. In-ground plumbing/site de-grassing **Call 1-985-655-1070 (South Central)**
3. Foundation (pre-pour) **Call 1-985-655-1070 (South Central)**
4. "Building Under Construction" Elevation Certificate, signed and stamped by a licensed land surveyor, if in an AE or VE flood Zone.. **Submit certificate to: St. John Planning & Zoning**
5. Planning & Zoning 1<sup>st</sup> inspection: **Call 985-651-5565 (St. John Planning & Zoning)**
  - Setbacks met
  - Port-o-let on site
  - Dumpster on site OR screened-in area to retain trash

**ALL OF THE ABOVE REQUIREMENTS MUST BE MET AND APPROVED BY ST. JOHN THE BAPTIST PARISH DEPARTMENT OF PLANNING & ZONING PRIOR TO POURING THE FOUNDATION.**

6. Electrical rough-in **Call 1-985-655-1070 (South Central)**
7. Plumbing top out **Call 1-985-655-1070 (South Central)**
8. Mechanical rough-in **Call 1-985-655-1070 (South Central)**
9. Framing **Call 1-985-655-1070 (South Central)**
10. Insulation **Call 1-985-655-1070 (South Central)**
11. Final electrical **Call 1-985-655-1070 (South Central)**
12. Final mechanical **Call 1-985-655-1070 (South Central)**
13. Final plumbing **Call 1-985-655-1070 (South Central)**
14. Attic Insulation **Call 1-985-655-1070 (South Central)**
15. Final building (Certificate of Compliance) **Call 1-985-655-1070 (South Central)**
16. First sewer inspection: inspection of uncovered lines after connection to the public sewer system. (see attached sewer specifications) **Call 985-651-6800 (St. John Utility Department)**
17. Second sewer inspection including check valve **Call 985-651-6800 (St. John Utility Department)**  
*(You will not receive a Certificate of Occupancy if you do not have this inspection)*
18. Inspection of backflow preventer on water lines per Cross Connection Control & Backflow Prevention Program Plumber's Instruction Packet. Packet is on our website at [www.sjbparish.com](http://www.sjbparish.com) under Planning & Zoning/Forms and Permits
19. "Finished Construction" Elevation Certificate, signed and stamped by a licensed land surveyor, if in an AE or VE flood zone. **Submit certificate to: St. John Planning & Zoning**
20. Planning & Zoning 2<sup>nd</sup> inspection: **Call 985-651-5565 (St. John Planning & Zoning)**
  - Construction debris removed from property including port-o-let
  - Landscaping installed according to approved plan
  - Parking complete and striped
  - No construction related damage to street/curb or other public property
  - Driveways & sidewalks installed and approved
21. Fire Marshal Inspection (ok for permanent occupancy) **Call 225-925-4920** Submit to Planning & Zoning
22. Health Department final **Call 985-536-2128** Submit to Planning & Zoning
23. Backflow inspection **Call 985-651-6800 (St. John Utility Department)**
24. Backflow preventer test completed and turned in to St. John Planning & Zoning Dept.

**All of the above requirements must be met and approved by St. John the Baptist Parish Planning & Zoning Department before the Certificate of Occupancy will be issued.**
