### CONTRACT FOR PUMP MAINTENANCE AND REPAIRS

Be it known, that on this 28 day of April, 2015, St. John the Baptist Parish Council, (hereinafter referred to as "PARISH") and Industrial Electric Coil, LLC, 11223 Old Baton Rouge Hwy, Hammond, LA 70403, (hereinafter referred to as "CONTRACTOR"), do hereby enter into this "Contract" under the following terms and conditions.

#### SCOPE OF SERVICES

The services to be performed by Contractor for Parish under this Agreement ("Services") are set out in Exhibit A (Statement of Work), incorporated herein by reference. The Services are to be performed in support of the project identified in **Exhibit A: Statement of Work**.

#### PAYMENT TERMS

In consideration of the services described above, Parish hereby agrees to provide compensation to the Contractor on an as needed basis in accordance with its fee schedule listed in **Exhibit B: Pricing Schedule**.

All payments must be approved by **Director of Public Works**.

#### INSURANCE

Contractor shall meet or exceed the Parish's Insurance Requirements as listed in **Exhibit C: Insurance Requirements**.

#### MONITORING PLAN

This Contract shall be monitored by the **Director of Public Works**. The monitoring plan will include a review of the services delineated in Exhibit A: Statement of Work to ensure completion, a review of invoices for accuracy prior to reimbursement of services, etc. The contractor shall submit a monthly summary of activities in accordance with the attached statement of work.

**TAXES**

Contractor hereby agrees that the responsibility for payment of taxes from the funds thus received under this Contract and/or legislative appropriation shall be contractor's obligation. Contractor is required to provide a completed W-9 form prior to commencement of work.

**TERMINATION FOR CAUSE**

Parish may terminate this Contract for cause based upon the failure of the contractor to comply with the terms and/or conditions of this Contract, provided that Parish shall give the Contractor written notice specifying the Contractor's failure.

**TERMINATION FOR CONVENIENCE**

Parish may terminate this Contract at any time by giving thirty (30) days written notice to the Contractor. The Contractor shall be entitled to payment for deliverables in progress, to the extent work has been performed satisfactorily.

**OWNERSHIP**

All records, reports, documents, and other material delivered or transmitted to Contractor by Parish shall remain the property of Parish, and shall be returned by Contractor to Parish, at Contractor expense, at termination or expiration of this Contract. All records, reports, documents, or other material related to this Contract and/or obtained or prepared by Contractor in connection with the performance of the services contracted for herein shall become the property of Parish, and shall, upon request, be returned by Contractor to Parish, at Contractor's expense, at termination or expiration of this Contract.

**NON-ASSIGNABILITY**

Contractor shall not assign any interest in this Contract by assignment, transfer, or novation, without prior written consent of Parish. This provision shall not be construed to prohibit the Contractor from assigning its bank, trust company, or other financial institution any money due or to become due from approved contracts without such prior written consent. Notice of any such assignment or transfer shall be furnished promptly to Parish.

**AUDITORS**

It is hereby agreed that Parish shall have the option of auditing all accounts of Contractor which relate to this Contract.

**TERM OF CONTRACT**

The contract shall be for a three (3) year period beginning April 01, 2015, and ending March 30, 2018, with an option to renew in one-year increments upon written mutual agreement between the Parish Council and the Company, up to five (5) times.

**INDEMNITY**

To the fullest extent permitted by law, Contractor shall indemnify and hold harmless and defend the Parish and all of its Agents and Employees, from and against all claims, damages, losses and expenses, including but not limited to attorney's fees, arising out of or resulting from performance of the work, provided that such claim, damage, loss or expense is attributable to

bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the work itself) including loss of use resulting therefrom, but only to the extent caused in whole or in part by negligent acts or omissions of Engineer.

**SEVERABILITY CLAUSE**

If any one or more of the provisions contained in this Contract shall, for any reasons, be held to be invalid, illegal or unenforceable, in whole or in part, such invalidity, illegality, or unenforceability shall not affect any other provisions of this Contract, and in such an event, this Contract shall be construed as if such invalid, illegal, or unenforceable provisions had never been contained herein.

**NOTICES**

All notices or demands required to be given, pursuant to the terms of this Contract, shall be given to the other party in writing, delivered in person, sent by facsimile transmission, deposited in the United States mail, first class postage prepaid, registered or certified mail, return receipt requested or deposited with any commercial air courier or express service at the addresses set forth below, by acknowledged e-mail, or to such other address or written form of communication as the parties may substitute by written notice, by giving at least 7 days notice of such change.

### Maintenance of Pumps - Scope of Services

The contractor's on-site designated mechanic must have a minimum of five (5) years' experience in the warranty repair, installation and/or startup of centrifugal, self-priming centrifugal and multistage vertical turbine cold water pumps in sizes up to at least 36 inches in diameter. He/She must have experience as a factory trained representative for a major pump manufacturer such as Aurora, Crane Deming, Zoeller, Fairbanks Morse, Gorman Rupp, Peerless, etc. The contractor will be required to submit training documents for employees. The contractor must have available mechanics 24 hours a day 7 days a week including holidays.

The contractor must have an available machine shop 24 hours a day 7 days a week including holidays at their disposal. Contractor must be able to supply St John Parish with documentation to support availability of machine shop. The shop must employ full time a machinist on call 24 hours a day, 7 days a week to do any emergency work. The machinist must have at least five (5) years' experience on lathes and milling machines. The company must be equipped with at least one lathe, one milling machine and broach equipment. The shop must have all other necessary equipment such as bearing presses, drill presses, all necessary machine tools, plasma cutting, wire feed, stick, TIG, and Heliarc welding machines for cast iron aluminum, stainless steel and steel metals with certified welders trained in the operation of this equipment and experienced in metal repair. All maintenance installations repairs or workmanship shall be performed in a responsible manner in accordance with high quality work standards that meet or exceed all warranty and manufacturer recommended procedure that assures the manufacturer honors its warranty.

The completed finished component or system must function free of excessive vibration; with motor and pump coupling to be aligned with laser alignment technology. Alignments must be performed by a qualified technician. All couplings must be aligned to within .0001 total run out. All coupling alignments must have a printed read out of final alignment number.

Only precision, high quality professional workmanship shall be acceptable. It is the objective to obtain a comprehensive long term, cost effective preventative and demand maintenance so that the maximum useful life of the equipment can be achieved.

The contractor shall systematically examine, troubleshoot, repair, retrofit, upgrade, replace worn parts or components of equipment with new or reconditioned parts or components and install new equipment. When completed, the equipment must be cleaned, aligned, adjusted, calibrated, balanced, lubricated and all other tasks required, then tested to verify the efficient and effective performance of the component.

The contractor shall supply all necessary tools, testing devices, shop facilities, equipment, parts materials and labor to implement a thorough completion of the work in a timely, cost efficient manner.

The contractor must stock and maintain a sufficient inventory of factory recommended replacement parts and components for all pumps and controls to expedite maintenance service and to assure that any downtime shall not exceed a maximum of 5 working days.

The contractor must guarantee a six (6) month warranty on all repaired or rebuilt equipment and a minimum of a one year warranty on new equipment.

All waterworks and drainage motor rewinds shall be wound with no less than a class "h" insulation rating throughout and be dipped in a class "h" insulating varnish or resin. All motors greater than 50 hp shall be given (1) additional dip and bake cycle for additional insulation and rigidity properties. All bearing shall be changed with quality grade ball bearings such as FAG, NTN or SKF. All machine work shall be done in accordance with normal motor tolerances unless otherwise instructed to do so. All motors shall be tested and readings recorded before leaving the repair facility.

All reconditioned motors shall carry a six (6) month warranty on parts and labor, while a rewind motor shall carry a 1 year warranty on parts and labor.

Priority must be given to work under this bid to make certain that equipment downtime does not interrupt the supply of drinking water to the public. Work assignments for this bid shall be issued by the plant/drainage supervisor or his designated representative. The plant/drainage supervisor must be consulted prior to taking any equipment out of or into service. All work must be performed in full cooperation and coordination with the waterworks/drainage operating staff to assure proper drainage and a continuous supply of drinking water to the public.

It is absolutely essential that the maintenance service be supplied promptly when needed. The assurance of continuing waterworks and drainage operations is of prime importance. The contractor must provide 24 hour service, 7 days a week including holidays. Emergency service must be prompt and effective.

The contractor shall establish the necessary quality control, inspection and evaluation practices to ensure field performance of the replaced or repaired system achieves the design capacity for a maximum period of time.

During maintenance or repair operations, special precautions shall be taken to prevent the contamination of drinking water facilities. Precautions shall be taken to minimize contamination of the equipment being serviced and of the surrounding area.

Special care must be taken with grease or other lubricants to prevent them from contamination and to prevent them from contaminating existing facilities. All water, paint chips, sediment, dirt or foreign material accumulated in repaired equipment shall be vacuumed, discharged, or otherwise removed from the units.

Proper cleaning is necessary before any repaired equipment can be placed in contact with potable water. If necessary, in the judgment of waterworks supervisor, such repaired or installed equipment must be disinfected according to the latest edition of AWWA STANDARD C653 by the contractor, at the contractor's expense.

The contractor shall exercise all required safety measures to conduct works in a safe manner and shall adhere strictly to all Federal, State, Parish and Waterworks safety regulations, rules and requirements.

Safe tools and personal protection equipment must be provided for the job by the contractor. The contractor shall do everything necessary to protect the life, health, safety and welfare of their employee, of waterworks employees, and of the public. The contractor must be familiar with the special precautions required to work in and around water treatment facilities including the specific safety hazards associated with treatment chemicals, waterworks processes and equipment associated with a water treatment operation.

The contractor must supply **ALL** material at his cost for each individual part. The contractor must submit a copy of their vendors invoice for materials supplied. All contractors are required to maintain documentation to ensure that every effort has been made by the contractors to secure the lowest possible price for all parts and/or equipment used in this contract.

The contractor shall log in with the operator upon arrival to the job and shall log out upon completion of the job. The parish will not be responsible for travel time to a job site in excess of one hour, by the contractor's employee's or agents.
